WHAT OUR CUSTOMERS SAY ABOUT US :

Utilising Access Transcription has resolved the issues of administrative staff down-time such as sick leave, annual leave — and also gives us the flexibility to recruit with no time constraints. There are no hidden costs and the cost for transcription is very competitive. We have no hesitation in recommending this service
- Red Radiology.

We have been using the services of Access Transcription who undertook a comprehensive review of our security and procedures and complimented our on-site transcription systems. We have been very satisfied with the quality and costs, and also the streamlining and personalisation of the service.

- X Radiology Australia.

MEET THE TEAM

Anne Robertson

Anne Robertson is your Director of Client Services and has more than 32 years' experience in health.

As someone who began her career as a specialist medical typist/receptionist and progressed to become an Administration Services Manager, Anne is well equipped to understand the needs of your business. Throughout her career, Anne has worked as an administrative manager within radiology and has worked across other health remits including occupational therapy, physiotherapy, podiatry and social work areas.

She has further worked in ENT and with general physicians and infectious disease experts. Anne has experience working with major hospitals and private health organisations throughout Western Australia, Victoria and Queensland.

Anne knows that quality assurance is paramount. Applying her proven track record in client system's analysis, she makes recommendations that enhance their operational capability in delivering a higher volume of accurate reports that are also time and cost effective.

Michael Renton

Michael Renton is the owner and founder of Access Transcription and brings more than 30 years' experience across finance, business and health industries.

Michael is nationally regarded for his excellence across the business industry having held numerous C-suite roles across his career.

He has largely been focussed on shaping businesses towards improving their quality assurances, while implementing systems and procedures to deliver cost savings and increased profit margins.

Access Transcription employs over 200 staff including medically trained professionals, each dedicated to maintaining the highest quality output and cost savings.

Michael is always open to working with clients to look at ways their businesses can reduce their operational expenditure without compromising on quality and productivity.
